Hardy Nursery Stock

Are you aware of the publications that HDC have produced for you, which are FREE, to HDC members growing hardy nursery stock? If not read on...

What we have produced so far!

Over recent years we have produced a varied and valuable number of factsheets and publications, which you can order by ticking the box provided and returning this form to the address below.

The list is as follows:

Factsheet	Title
<input type="checkbox"/> 03/09	Biobeds for treatment of pesticide waste and washings
<input type="checkbox"/> 20/08	Wet heat treatment to sterilise pots for re-use
<input type="checkbox"/> 15/08	Pest, disease and weed management in ornamental aquatic plants
<input type="checkbox"/> 06/08	A guide to best practice in handling bought-in plants
<input type="checkbox"/> 02/08	Stemphylium leaf-spot and other foliar diseases of hebe (HNS 128)
<input type="checkbox"/> 01/08	A guide to simple and effective nursery trials
<input type="checkbox"/> 15/07	Control of leaf miners on pot and bedding plants
<input type="checkbox"/> 10/07	Guidelines on nursery hygiene for outdoor and protected ornamental crops
<input type="checkbox"/> 15/06	Water quality for irrigation of container ornamentals
<input type="checkbox"/> 14/06	Pesticide spray application for ornamental crops
<input type="checkbox"/> 13/06	Caterpillars of protected ornamental crops
<input type="checkbox"/> 01/06	Capillary irrigation of container grown nursery stock
<input type="checkbox"/> 27/05	Winter protection of container grown nursery stock
<input type="checkbox"/> 19/05	Methods and equipment for matching irrigation supply to demand in container-grown crops (HNS 97a)
<input type="checkbox"/> 16/05	Measuring and improving performance of overhead irrigation for container-grown crops (HNS 97a & HNS 122) (includes computer programme)
<input type="checkbox"/> 15/05	Use of chemical disinfectants in protected ornamental production
<input type="checkbox"/> 14/05	Control of whiteflies on protected ornamental crops
<input type="checkbox"/> 08/05	The biology and control of two-spotted spider mite in nursery stock
<input type="checkbox"/> 07/05	Securing your water supply for the future
<input type="checkbox"/> 05/05	Nutrition of container-grown hardy nursery stock (HNS 43a-f, 95, 96, 96a and 98)
<input type="checkbox"/> 16/04	Control of <i>Phytophthora</i> , <i>Pythium</i> and <i>Rhizoctonia</i> in container-grown hardy ornamentals
<input type="checkbox"/> 14/04	Hardy nursery stock - management of stock plants
<input type="checkbox"/> 12/04	Control of foliar diseases of container-grown roses (HNS 106 & HNS 106a)
<input type="checkbox"/> 07/04	Managing rabbit problems associated with horticulture
<input type="checkbox"/> 04/04	Control of downy mildew diseases on hardy nursery stock and herbaceous perennials (HNS 79 and HNS 53)
<input type="checkbox"/> 19/03	Sudden Oak Death / <i>Ramorum</i> Dieback – implications for the HNS industry
<input type="checkbox"/> 02/03	Vine weevil control in hardy nursery stock
<input type="checkbox"/> 25/02	Controlling humidity to minimise the incidence of grey mould (<i>Botrytis cinerea</i>) in container-grown ornamentals: heated glasshouse crops (PC/HNS 121)
<input type="checkbox"/> 24/02	Control of grey mould (<i>Botrytis cinerea</i>) in container-grown ornamentals: heated glasshouse crops (PC/HNS 121)

- 23/02** Control of grey mould (*Botrytis cinerea*) in container-grown ornamentals: unheated greenhouse crops (HNS 121)
- 18/02** Roses: Increasing basal shoot production (HNS 101)
- 08/02** Control of Sciarid flies in protected ornamentals
- 07/02** Integrated control of slugs and snails (HNS 105)

Information sheets

- 01/03** Two new weevils threaten nursery stock - *Otiorhynchus armadillo* and *Otiorhynchus salicicola*

Publications

- Ornamental plant quality – developing a whole business management system - a grower guide
- Weed identification pocket guide
- Slow Sand Filtration – A growers’ guide
- Weed control handbook (Fully Revised 2007)
- Lighting for nursery stock (HNS 42)
- Peat and its alternatives for commercial plant production in the UK
- Energy News for the horticultural industry

Posters

- Pesticide checklist 2008 - shrubs
- Pesticide checklist 2008 – herbaceous perennials
- Pesticide checklist 2008 - roses
- Pesticide checklist 2008 - conifer

DVDs

- Health & Safety in horticulture - an awareness DVD in ten languages (plus English)

Videos

- Improving efficiency in potting (includes manual)
- Handling container grown nursery stock (includes manual)

Computer Program

- HDC Irrigation Calculator – A graphical tool to improve irrigation water distribution (and factsheet 16/05)
- ROSIE - A Windows program to assist in the scheduling of containerised roses grown outdoors under UK conditions

What would you like to see?

We would very much value your comments or ideas on what factsheet/publication topics you would like to see in the future.
